Description:

Book Three in the Blue Plague series.

Mankind is on the verge of extinction. Bruce and the family have continued to pull survivors together after the world succumbed to a virus that altered the genetic make-up of humans. The infected are everywhere, killing everything in their path and what's most troubling, they're learning. The family and clan are learning as well. Finding out just what it takes to rebuild for a large group of people and at the same time fight to survive. The infected aren't the only thing out there in this new world that wants to hurt them. Other survivors from their past want more than to just survive, they want to rule.

Debbie's premonitions are becoming more frequent and vivid. Will they come to pass or is it just paranoia. What will it take to survive in this new world and what sacrifice will have to be made for mankind to live?
