Description:

From Taking his swing at the origins of World War II, conservative pundit Buchanan incorporates the subject into his warnings, expressed in several populist jeremiads (State of Emergency, 2006), of

the decline of the West. Certainly World War I, with which Buchanan begins, was a catastrophe for Western civilization whose ramifications continue to be felt. Buchanan's interpretation generally holds that British and American participation in both WWI and WWII was avoidable if British leaders had recognized that Germany was no threat to the vital interests of the British Empire. Banking his thesis on such supposed benevolence from Wilhelm II and Adolf Hitler, Buchanan criticizes various British policies of the 1920s and 1930s (who doesn't?), and argues collaterally with Hitler's statements disclaiming fundamental conflicts with Britain. The weakness in Buchanan's line of thinking, of course, is that by 1939, Hitler's international word was worthless; yet Buchanan hinges his case on what might have happened had Britain let Hitler go after Poland in 1939 as it had Czechoslovakia. Speculating a better future had the West permitted Nazi Germany a free hand in Eastern Europe, Buchanan cites the historical costs of Britain and France having at last drawn the line against aggression. Convinced? Controversial as is his wont, Buchanan reminds his large readership that the immediate ignition of WWII can still be disputed. --Gilbert Taylor --This text refers to an out of print or unavailable edition of this title.

About the Author PATRICK J. BUCHANAN was a senior adviser to three American presidents; ran twice for the Republican presidential nomination, in 1992 and 1996; and was the Reform Party candidate in 2000. He is the author of nine other books, including the bestsellers *Right from the Beginning; A Republic, Not an Empire; The Death of the West; State of Emergency;* and *Day of Reckoning*. He is now a senior political analyst for MSNBC.
