**Description:**

**From Publishers Weekly** The subtitle's question is posed to baby boomers; the author's answers offer an array of arresting possibilities. Davidson, whose book *Loose Change* tracked three '60s Berkeley radicals, interviews well-known men and women as well as ordinary citizens and deals with such subjects as sex in the age of Cialis, finding work that expresses your purpose in life, finding a community to grow old with and finding a spiritual path. Davidson weaves in her own story, contrasting her decision to remain a writer with Marcia Seligson's midlife choice to give up a writing

career to found a musical theater. Some of the "leaps" represent spiritual transformation, such as how Sally Kempton left the ashram where she had been a disciple of Swami Muktananda for 27 years and adopted a new life of teaching and writing. Davidson compares the late marriage of Gloria Steinem at age 66 with Jane Fonda's ability to finally live without a man after her divorce from Ted Turner. Many of Davidson's subjects are from her own social circles, so her book won't apply to everyone. But her engaging and provocative anecdotes will inspire hope and creative thinking about the future in many readers. (*Feb. 20*)
