**Description:**

**Review** The world has waited a long time for the inside scoop on Roswell. Truth is an excellent

curative for false proclamations. The Roswell crashed saucer retrieval is one of the most important UFO cases ever, anywhere. We need more information from those directly involved, and this book provides a good deal of important new material. --Stanton T. Friedman --This text refers to an alternate edition.

**About the Author** Jesse Marcel, Jr., MD, received his undergraduate and medical degrees from Louisiana State University and specialized in diseases of the ear, nose, and throat after completing a residency at the Naval Hospital in San Diego. He served in the U.S. Navy from 1962 to 1971 and in the Montana Army National Guard from 1975 to 1996. He currently works as a doctor at the VA Hospital in Ft. Harrison, Montana.

Linda Marcel is a retired nurse, the mother of two of Jesse's children and the stepmother of one, the grandmother of 10 children, and a breast-cancer survivor.
